1 Introduction

1.1 Objective

The objective of the Relay Selection Process is to ensure the best possible teams are selected to represent the Nunawading Swimming Club (NSC) at State and National level swimming championships. It is expected that selected relay team members will represent NSC with respect, integrity and sportsmanship. When selected on an NSC relay team the team is representing the entire Nunawading Swimming Club.

In the interests of all Nunawading Swimming Club members, this policy also serves to provide clarity and transparency to the selection process.

1.2 Policy Principles

This document has been developed using the following principles and guidelines:

- The NSC recognises that the professionals coaching our swimmers are in the best position to select relay teams relating to swimmers and their likely performance at a meet, and evaluations of performances within a meet.
- A sense of fairness, responsibility and accountability
- NSC bylaws
- Common practice at State Level and above representative teams

Coaches will present the teams and state any reasons for changes from the swimmer ranking lists, for the benefit of the Team Managers and the Swim Committee Chair.
7. Close attention will be paid to ensuring no swimmer has been overlooked.
8. Consideration for reserves and pre planned alternate swims will also take place.
9. Once swimmers have been notified of their selection if a swimmer is unable to attend the meet the Nunawading Head Coach or the swimmers squad coach should be notified as soon as

possible. Once the coaches have been notified an additional swimmer will be selected and notified.
